

7 Home Safety Tips for Families with Young Children

1

Childproofing Essentials

Install outlet covers, cabinet locks, and safety gates at stairs and doorways to keep young children safe from common household hazards.

2

Secure Heavy Items

Anchor appliances, furniture and televisions to walls to prevent tipping, and replace blinds with long cords with cordless versions to avoid strangulation risks.

3

Window & Water Safety

Install window guards, use toilet locks to prevent accidental drowning, and ensure bathtubs have non-slip mats. Always supervise water activities.

5

Fire & Carbon Monoxide Safety

Install smoke alarms and CO detectors in bedrooms and on every level of the home..

Keep fire extinguishers accessible and ensure they're in working order.

4

Kitchen and Sharp Object Safety

Use stove knob covers, turn pot handles inward, and store sharp objects like knives and scissors out of reach. Install Anti-tip on oven

6

Emergency Preparedness

Keep a list of emergency contacts visible, maintain a stocked first aid kit, and create and practice an escape plan with your family.

7

Outdoor & Pool Safety

Secure fences and gates, regularly inspect playgrounds, and install a fence with a self-latching gate around pools. Always supervise children outdoors.
