

SMART TECH & HOME SAFETY

Love Where You Live

February is the month of love —
and that includes loving your home.

Here are smart upgrades and safety checks to keep
your space safe, energy-efficient, and stress-free.

SMART HOME DEVICES WORTH CONSIDERING:

Smart Smoke & CO Detectors

- Alerts your phone — even when you're away!

Water Leak Sensors

- Early warnings for hidden plumbing leaks

Smart Thermostats

- Control temps + save on your energy bills

Video Doorbells

- Added peace of mind for everyday safety

Crawlspace Moisture Monitors

- Catch water issues before they become expensive

Be Safe Where You Live

Safety Issues We Find During Inspections:

- Dead backup batteries in detectors
- Missing seismic straps on water heaters
- Leaky pipes under sinks or in crawlspaces
- Old/outdated smoke alarms
- Thermostats not functioning correctly
